

Small footprint A3 MFPs

Compact and affordable

The stylishly designed Aficio™MP 2352SP/MP 2852/MP 2852SP/MP 3352/MP 3352SP are black-and-white A3 multifunctionals, packed with advanced features for cost-effective copying, local printing via USB, fax communications and network scanning. Yet all this comes in a highly compact package; these devices are the smallest footprint A3 MFPs in their range. With a short warm-up and fast speeds, these devices increase office productivity. Standard duplex, colour scanning, a high paper capacity and wide media handling capabilities extend their versatility. These A3 MFPs offer you the functionality you need at a price you can afford.

- Highly compact to save valuable office space.
- Enhanced controller specs for extensive functionality.
- Fast: up to 33 pages per minute.
- Network-ready as standard (MP 2352SP/MP 2852SP/MP 3352SP).
- Latest security features fully incorporated.

Innovative multifunctionality

SAVE SPACE

Thanks to Ricoh's innovative Simple Cube Design, these are the smallest A3 multifunctionals in their range. Both the optional internal finisher and standard envelope feeder are built-in, which reduces the number of protruding parts. Their compact footprint saves valuable office space.

OPTIMISE YOUR PRODUCTIVITY

These devices operate quickly, efficiently and smoothly. They only need 20 seconds to warm up, produce their first print/copy in 5.4 seconds or less, and have a maximum print speed of 33 pages per minute. Productivity is further enhanced by high-capacity paper trays.

IMPROVE YOUR WORKFLOW

Distribute documents quickly by scanning – in colour if needed – to e-mail, FTP, SMB or NCP. Print directly from USB memory or SD card, without having to switch on your computer. These devices are also fax-friendly, incorporating a Super G3 modem, Internet Fax, IP-Fax and LAN-Fax.

SIMPLE TO OPERATE

The large LCD colour touch-panel is easy to use and provides clear, step-by-step installation, operation and maintenance guidance in 14 languages. Maximum uptime is ensured through full front access and front-loading paper trays, which speed up replacement and maintenance procedures.

HIGHLY SECURE

All these devices incorporate the latest level of security features to meet your requirements in this area. They support security standard IEEE2600.1. HDD encryption and HDD overwrite are standard features (MP 2352SP/MP 2852SP/MP 3352SP); your data remains fully protected as only authorized users are able to access your networks.

WIDE MEDIA VERSATILITY

Two standard paper trays and a 100-sheet bypass tray offer a capacity of 1,150 sheets. This is increased to 3,150 sheets by adding a 2,000-sheet Large Capacity Tray. You can opt for the space-saving 500-sheet internal finisher, while other possibilities include a 500- or 1,000-sheet external finisher and a 1,000-sheet booklet finisher. Best-in-class image quality allows you to produce professional, attractive documents in-house.

ENVIRONMENTALLY FRIENDLY

At Ricoh we help you lower the environmental impact of your office as well as lower your cost. These devices have eco-friendly and money-saving features such as short warm-up time, ultra-low sleep mode, high toner yield, standard duplexing and quota setting. In addition, Ricoh products are Energy Star compliant. This means less CO2 is produced in providing the energy needed to run Ricoh devices.
